STACK

TypeScript · JavaScript · Python · React 18 · Next.js · Node.js · Express · FastAPI · MongoDB Atlas · Socket.IO · Tailwind CSS · UI/UX design

AVAILABILITY

Open for freelance projects. Typical scope: 1–4 weeks, fixed end date, no retainer.

PROFILE

I build the product and the automation behind it: React and Next.js front ends, Python and Node services, retrieval assistants, and workflow automation for teams.

EXPERIENCE

Closed-source engagements; code and walkthrough available on request.

Enterprise workforce & AI copilot platform

Sep 2026 — Present

Fullstack software engineer · React 18 · TypeScript · Vite · Node.js

- React 18 + Vite SPA for 140+ stores and 2,400+ workforce profiles, holding sub-100 ms interactions through targeted state caching.
- Socket.IO event pipeline, optimistic concurrency with 409 recovery, and a FastAPI retrieval copilot with citation metadata.

Saigon to Coast — travel booking & fleet dispatch

2025

Fullstack software engineer, solo delivery · Astro · TypeScript · Cloudflare Workers · D1

- Astro on Cloudflare Workers + D1: $450K+ annual booking GMV, 40,000+ monthly travellers, sub-50 ms edge latency.
- Telegram dispatcher removed 85% of manual dispatch; AI consultant lifted quote-to-booking conversion 38%; $0 hosting.

Online course platform — LMS & exam engine

Solo fullstack developer · PostgreSQL · Redis · Python (PyMuPDF) · WebSockets

- Proprietary LMS for 10,000+ students and 9,500+ exam assets, replacing Kajabi/Teachable at $0–$10 per month.
- Offline-first exam engine for 1,000+ concurrent test-takers with 0% data loss, plus Redis/Canvas DRM and watermarking.

JobMarket — AI recruitment & resume builder

Lead fullstack architect · Laravel 12 · PHP 8.2 · MySQL · Google Gemini

- Laravel 12 recruitment platform: 85,000+ candidates, 1,500+ recruiters, $0 → $185K ARR in six months.
- Gemini matching engine with composite cache (<10 ms, −85% LLM spend) and a 5-stage ATS that cut hiring cycles 72%.

SELECTED WORK

HR Blockbot · 2026 — HR workflow automation for staff across departments, plus an AI policy assistant that answers from company documents.

Rea Lab · 2025 — product site, design to deployment.
